Warrantee Statement

This limited warranty is provided by Sun Spectrum Technologies, LLC (“Seller”) to you as the original purchaser of Sun Spectrum products. Seller warrants that its light emitters, power supplies and any other component sold directly by Sun Spectrum will be free from defects in material and workmanship. For power supplies and Sun Spectrum Tunable Grow Lights the light maintenance value for the Product shall not fall below 80% of the stated maintenance value set forth in Seller’s specifications, for the period of 3 years and all other product sold for a period of 1 year from the date of Buyer’s purchase (the invoice date), subject to the terms and conditions herein. The final determination of whether the Product is defective shall be made by the Seller in its sole discretion, with consideration given to the overall performance of the Product.

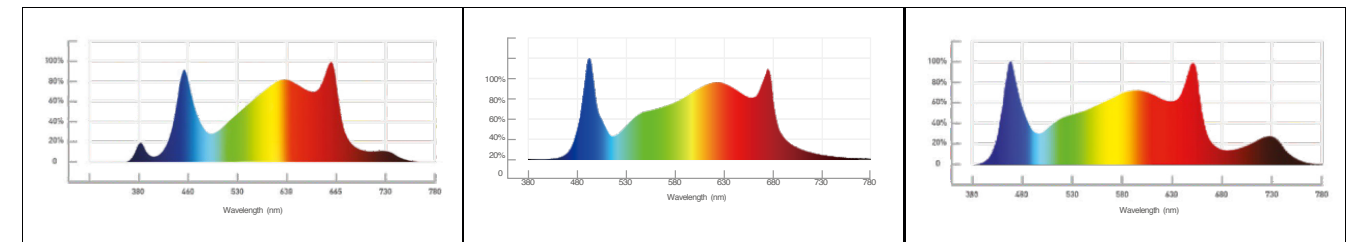

If any Product does not conform to the Limited Warranty, Seller will, at its sole option, replace the nonconforming Product with an equivalent at no charge to Buyer or grant Buyer a pro-rated credit for the purchase of a future Product (based on the remaining warranty life of the original Product); provided, however, that such obligations of Seller shall be contingent upon the following: (1) Buyer returns the Product and the invoice or receipt showing the original date of purchase of the Product to Seller; (2) Buyer provides adequate records of operating history to Seller; and (3) Buyer provides Seller with access to the fixtures used to operate the nonconforming Product

Fully Tunable LED Grow Lights Minimize Your Time To Grow While Maximizing Your Profits

A HUGE breakthrough for home growers!

From seed to harvest, ONE light can be “tuned” to almost any spectrum with minimal heat via your mobile phone.

Minimize your grow time while maximizing your Profits!

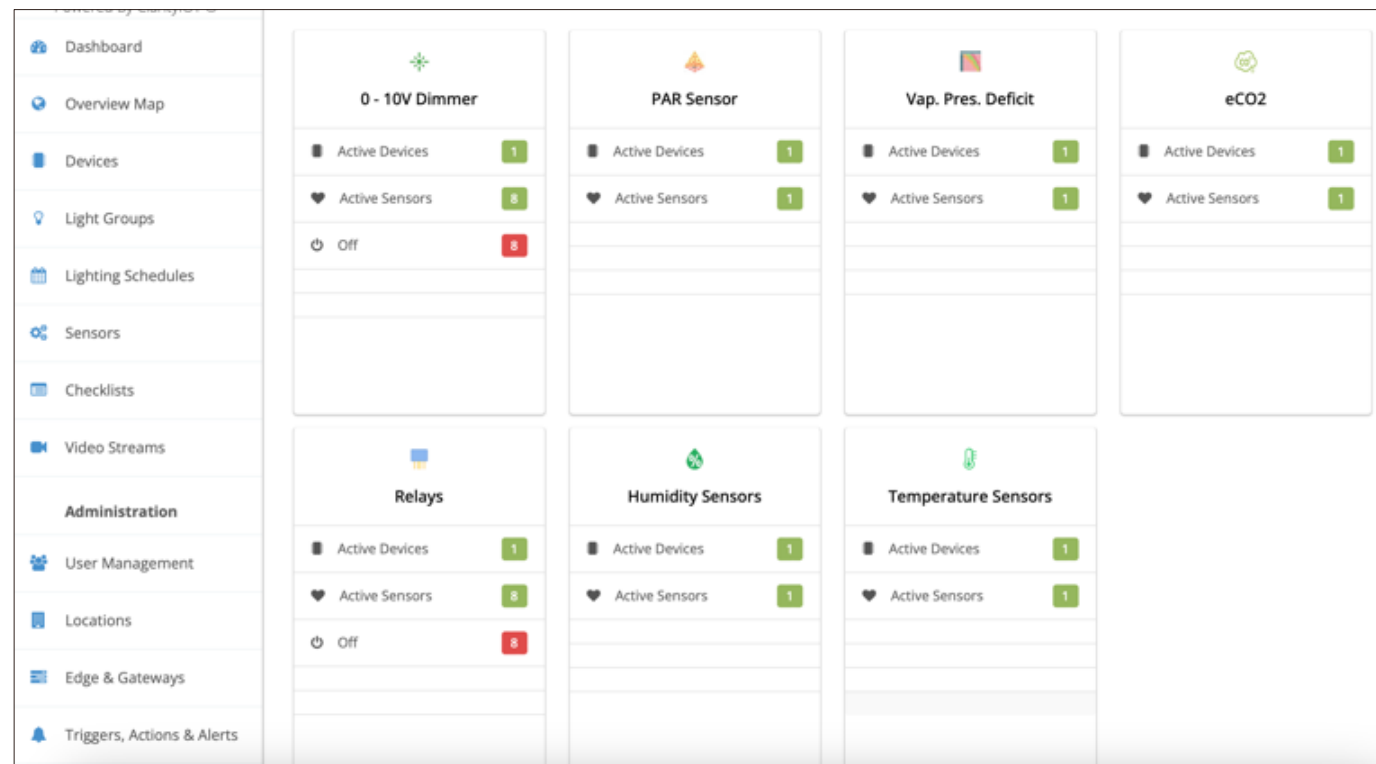

Sun Spectrum offers a best-in-class home growing system that uses advanced technology which is simple to monitor, change and control using your mobile phone. With over two decades in the lighting business, we offer a unique and integrated system that is cost effective.

SunSpectrum Remote Driver and control systems are powering the next generation of horticulture grow systems.

Why use Sun Spectrums remote driver and control system?

- Removes power supply from the tent eliminating the heat from the grow area.
- Reduces energy.
- Simplifies the lighting control for SunSpectrum Fully Tunable Light Fixtures.
- SunSpectrum Control system allows the controlling, scheduling and monitoring, your grow all within one simple dashboard. Our system allows you to control the spectrum and PPF of the lights, the airflow, circulation, humidity, temperature and full scheduling of all devices.
- **Monitoring:** With a full gamut of add on sensors (Temperature, Humidity, Co2, Soil moisture, PAR) and wireless cameras you can monitor your grow from anywhere in the world using a tablet, phone or computer.
- **Automation:** SunSpectrum control system allows you to program all your growing equipment for the full of light intensity, light spectrum, on/off periods, fan speed, airflow volume, humidity and temperature to make changes to better suit how your plants are growing at anytime from anywhere in the world.

Integrate SunSpectrum GROWINSIGHT™ for full remote scheduling and monitoring of all your grow equipment.
