

THE VALUE OF ONE

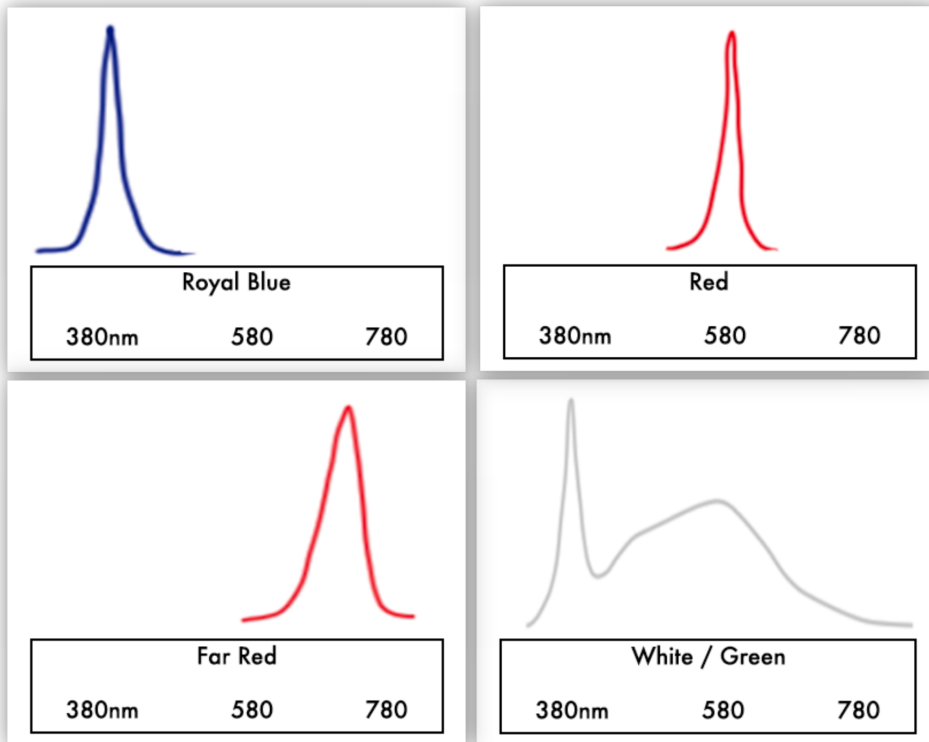

5995 149th St West
Apple Valley, MN 55124
(612) 670-5258

One INTEGRATED GROWING SYSTEM®

to meet all your growing needs Today and Tomorrow

ONE Infinitely Adjustable, 4-Channel LED Emitter
ONE Lighting System That Controls Intensity, Duration,
AND Spectrum to meet any/all requirements

OPERATING SPECIFICATIONS

Spectrum: Virtual
Efficacy: 2.68 – 3.23 @ 350 mA
Average PPF: 1,792 $\mu\text{mol}/\text{m}^2/\text{s}$
Average DLI: 86.65 mol/day m^2 of Array
Light Distribution: 120°
Warranty: 5 Year Limited

SUN's patent-pending tunable grow light is capable of creating almost any spectrum needed to grow almost anything - and is controlled with a programmable IoT Digital Cloud Control solution.

Introducing: Rotation and Linear Growing System®
Patent Pending

- Rotates 180° on command that allows for TWO usages/day = $\frac{1}{2}$ Cost of Lighting
- Linear moves 12" off center both directions which maximizes grow/sq. ft. WITHOUT interfering in harvesting
- Framed Emitters 1 ft X 8 ft
